Call went well. 1 hour. I will send notes. Most interested in understanding secondary containment requirements and in this case the failure. Questioned if we were sampling groundwater which we are not – but didn't push back. Also, questions about if there is a complaint line. Answer is yes but company run. Wanted to know if we verified individual complaints – answer was no. Unusual question about if we ever ran a 'test' scenario to see if complaints were filed without an actual event. Answer was I don't think so but I have heard of situations where during an field emergency exercise – people not realizing it is an exercise have called with symptoms/complaints.
